## SUMMARY

Remote React Developer with a strong focus on building accessible, responsive, and user-friendly web applications using Next.js, TailwindCSS, and modern JavaScript frameworks. Highly flexible with time and experienced in remote environments, I adapt quickly to new challenges. Skilled in component-based architecture, secure user authentication, and creating seamless animations. Passionate about delivering polished user experiences while maintaining code quality and reusability.

## PROJECTS

### Influence Infinity                                                    Visit Site ↗
**Social Media Marketing Agency Website**

- Crafted a multi-page application in Next.js for a social media marketing agency.
- Designed a visually striking user interface using TailwindCSS with a focus on usability.
- Incorporated responsive design principles to ensure optimal viewing across all devices.
- Implemented Framer motion to create engaging and smooth animations.
- Created interactive sections showcasing service offerings, effectively communicating the value proposition to potential clients.
- Employed modern web development practices, including component-based architecture to ensure code reusability and maintainability.

### Read Well                                                            Visit Site ↗
**An online bookstore**

- Developed an online bookstore, utilizing the Google Books API to offer a vast selection of books for users to browse and purchase.
- Implemented the front-end using Next.js and Tailwind CSS, ensuring a responsive and user-friendly interface across devices.
- Integrated NextAuth for secure user authentication supporting multiple login providers
- Handled state management and API data fetching efficiently, ensuring smooth and real-time updates across the website.
- Designed and managed a relational database schema using Prisma, ensuring data consistency and integrity across the site.

## TECHNICAL SKILLS

**Programing Languages:** JavaScript, TypeScript, HTML5, CSS3

**Libraries & Frameworks** React, Next.JS, TailwindCSS

**Tools & Platforms** GitHub, Vercel, Prisma

## ADDITIONAL SKILLS

- Fast Learning
- Teamwork
- Problem solving
- Communication

## EDUCATION

Computer Science, SERŠ, Maribor                                          2019-2023
